Number **SE2068NM**

This certificate, issued to

**Kenmore Air Harbor, Inc.  
P.O. Box 82064  
Kenmore, WA 98028-0064**

certifies that the change in the type design for the following product with the limitations and conditions therefore as specified hereon meets the airworthiness requirements of Part 33 of the Federal Aviation Regulations.

Original Product—Type Certificate Number:

E5CE

Make:

Continental

Model:

I0-520-A, -D, -E, -F, -J, -K and -L

Description of the Type Design Change: Remove fuel injection system, install Marvel Schebler Carburetor System and revise operating limits as shown in Addendum SE2068NM. This is in accordance with Kenmore Air Harbor, Inc. Report No. 12762, Rev. 1, dated July 9, 1988, or later FAA approved revisions.

NOTE: This engine modification is limited to installation in the Cessna 180G, 180H, 180J, and 180K aircraft only.

Limitations and Conditions: Approval of this change in type design applies to the above model engines only. This approval should not be extended to other engines of this model on which other previously approved modifications are incorporated unless it is determined that the relationship between this change and any of those other previously approved modifications, including changes in type design, will introduce no adverse effect upon the airworthiness of that engine. A copy of this Certificate, and Addendum, amended March 1, 1999, or later FAA approved revision, must be maintained as part of the permanent records for the modified engine.

If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission. (See Continuation Sheets Page 3 and 4)

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
